

SMART Q is the fastest infrared moisture analyzer on the market

(Matthews, NC) February 1, 2019- CEM Corporation, a leading supplier of innovative testing solutions, is pleased to announce the introduction of the SMART Q Quartz Halogen Moisture Analyzer. Utilizing a mix of patented and proprietary technologies, the SMART Q is the fastest infrared moisture analyzer on the market. High quality, analytical-grade internal components are housed within an extremely rugged shell, making the SMART Q ideal for both laboratory and manufacturing settings.

Based on the same award-winning technology as the SMART 6 Microwave + Infrared Moisture Analyzer, the SMART Q provides excellent value for customers who prefer an infrared-only loss on drying method. The SMART Q can easily be upgraded to a SMART 6 for even faster results.

Some of the applications where the SMART Q has proven to outperform competitive infrared moisture analyzers include Pharmaceuticals, Plastics, Dairy Powders, Processed Foods and many more.

Please visit www.cem.com for more information about the SMART Q and CEM's other cutting-edge compositional analysis instruments.

#####

CEM Corporation, a private company based in Matthews, North Carolina, is a leading provider of innovative laboratory instrumentation. The Company has subsidiaries in the United Kingdom, Germany, Italy, France, and Japan, as well as a global network of distributors. CEM designs and manufactures systems for life sciences, analytical laboratories and processing plants worldwide. The Company's products are used in many industries including pharmaceutical, biotech, chemical and food processing, as well as academic research.
