

The 2019 Chem Show Set to Host Chemical Processing Industry's Networking Event of the Year

WESTPORT, Conn., August 13, 2019 – The 2019 [Chem Show](#), to be held October 22-24 at the Javits Center in New York City, will host more than 270 exhibiting companies and 5,000+ CPI professionals for three days of 1-1 networking, product interaction, educational seminars and best practices learning.

Attendees can register by visiting the [Chem Show](#) website. Advanced registration is free.

The Chem Show began in 1915 and has hosted some of the CPI's most influential professionals every odd year since. For more than 100 years, exhibitors, educators, plant managers, engineers and process industry executives have come together to discuss and share ideas pertaining to smarter, cleaner and more efficient solutions to optimize production and research operations.

Below is a compilation of information that demonstrates the benefit of attending and experiencing the CPI together under one roof:

Facts & Figures

- 5,000+ CPI professionals
- 270+ exhibiting companies
- Chem Show is the largest U.S. event focused on processing technology
- 73% of attendees report a direct role in purchasing
- 26 of the top 50 chemical manufacturers in attendance
- 30+ [Free Industry Seminar Sessions](#)
- 35+ [Product Presentations](#)

CPI Segments Represented

- Adhesives & Sealants
- Chemicals
- Cosmetics
- Fertilizers & Agrichemicals
- Foods & Beverages
- Metals
- Paints & Allied Products
- Petrochemicals & Petroleum Refining
- Pharmaceuticals
- Plastic Materials & Synthetic Resins

- Pulp & Paper
- Rubber and Rubber Products
- Soaps & Detergents
- Ceramics
- Textiles and Leather
- Utilities

What our Attendees and Exhibitors are Saying:

“I attend the Show to find suppliers with potential solutions to some of our current processing issues – and also to meet with contacts at suppliers we currently use,” Patrick Bier, Lord Corporation.

“The Chem Show is valuable to see new technologies and actual equipment, as well as face-to-face meeting with experts and vendors,” Francisco J. Rivas, DuPont Mexicana.

“The free seminars were very helpful. It was great to see raw data for the equipment on display,” Peter Tancini, Johnson Matthey.

“The Chem Show is a great place for all engineers to see how much various industries have in common,” Mary K. Lynch, Con Edison and Chair of NY Metro AIChE.

“Our business is working to diversify into other industries, and all of the people we’re trying to reach are here [at the Chem Show] because the Show attracts such a broad audience,” Tiffany Stolzenfeld, AMI/Cygnnet.

“As with most engineers, visual experiences go a long way with understanding products and applications. The Chem Show gives me the opportunity to meet directly with vendors and interact with their equipment hands-on,” Hugh Jackson, King Industries.

“One of the great values of the Chem Show is the touchpoints. Interfacing and collaborating with a variety of end-users at a single venue...it’s powerful,” Al Lee, Emerson.

Tools and Tips to Enhance Your Attendee Experience:

- [My Show Planner](#)
 - Attendees can create a free account that assists in mapping a full Chem Show experience with schedule building including education seminars, product and technology presentations and booth visits
- Download the free Show app
 - Attendees can view and interact with Show information from their Android and iOS mobile devices to search exhibitors, view an interactive floor plan, search the seminar program, schedule appointments with exhibitors, create a

custom agenda, keep track of Show progress and receive updated information and announcements

- Proactive planning using My Show Planner and the Chem Show app will help to maximize your show experience and opportunities
- Bring a colleague/s and set goals for your company as a team, as well as for yourself
- Wear comfortable shoes and plan for lots of walking
- Capitalize on less busy times of the day, which tend to be during lunch or near the end of the Show
- Bring business cards and remember to have vendors and other contacts scan your badge for shared information
- Register ahead of time and skip line wait times by having your badge mailed to you prior to the Show
- Review the [seminar program sessions](#) descriptions ahead of time and prepare questions you'd like to ask
- Stay up to date by interacting with Chem Show [social media](#) accounts
 - [Twitter](#) @chemshow
 - [Facebook](#) @chemshow
 - [Instagram](#) @chem_show
 - [LinkedIn](#)

About The Chem Show

The Chem Show is the chemical process industries' main event for processing technology. Held biennially, the Show brings together hundreds of exhibitors and thousands of industry attendees from all segments of the CPI as they seek ways to optimize their process operations. The Show offers a unique forum where leading manufacturers and suppliers can demonstrate their latest equipment, systems and products, and where engineers and plant managers can explore hundreds of new products and solutions. The next Chem Show will be held October 22-24, 2019 at the Javits Center, New York.
